

BASF compatibility list - Terms and Conditions

The use of the BASF Compatibility list is conditional upon the acceptance of these terms and conditions.

Terms & Conditions

When using a tank-mix detailed in the BASF Compatibility list you must:-

- Follow all recommendations provided on the manufacturer's label.
- Add each product to the spray tank separately, following the recommended mixing order if specified.
- Maintain suitable agitation during mixing and application
- Use the tank-mix immediately.

Certain tank-mixes stipulated in the BASF Compatibility List have been tested for **physical compatibility only** and do not represent a guarantee of either biological compatibility or crop safety.

In accessing the BASF Compatibility list you accept that no representation, guarantee or warranty is made or given by BASF in relation to the accuracy or completeness of this information or any other information published, and BASF shall have, as far as legally permissible, no liability to you, or any third party for any loss, whether direct, indirect or consequential (all three of which terms include loss of profit, loss of business, pure economic loss or depletion of goodwill together with any costs, damages, charges or expenses) howsoever arising as a result of the use of the BASF Compatibility list.

Without prejudice to the above all reasonable efforts have been made to ensure the accuracy of this information. However BASF cannot be held responsible for changes to formulation, specification, or recommendations relating to products from other manufacturers occurring since the completion of compatibility tests.

Use of the BASF Compatibility list shall not relieve the user from undertaking its own investigations and tests.
